## • DIRECTOR'S CORNER •

### Community Matters at Lisle Library by Shannon Halikias

During National Library Week, libraries all across the nation will host events that celebrate the unique role that libraries play in the lives of their residents. The theme for this year's activities is one that resonates with the Lisle Library District, "Communities Matter @ Your Library." National Library Week was first sponsored in 1958 and continues as a tradition to highlight resources, services, and the valuable contribution of libraries.

On April 12, we are pleased to present a *Maker's Fair*. We're partnering with the Lisle Chamber of Commerce and the Lisle Park District to bring local business and craft resources together for our patrons.

Libraries today are more than repositories for books and other resources. Often the heart of communities, campuses or schools, libraries are deeply committed to where their patrons live, work and study. Libraries are trusted places where everyone in the community can gather to reconnect and reengage with one another to enrich and shape the community and address local issues.

Librarians work with elected officials, small business owners, students and the public at large to discover what their communities needs are and how to meet them. Whether through offering e-books and technology classes, materials for English language learners, programs for job seekers or those to support early literacy, librarians listen to the community they serve, and they respond. We look forward to celebrating with you!

### Technology Tutors — One-on-One Computer Help Just for You!

Thursday, March 6 & March 27, 2 to 4 p.m.

Need help attaching a file in email, driving directions with Google maps, uploading a photo in Facebook? We can help! Adult Services now offers one-on-one sessions for basic computer questions. Our librarians can assist with basic Microsoft Office questions, Internet searching and email. You must register for a 30-minute session on a computer topic of your choice. (Call 630.971.1675 and ask for Jen Ohzourk ext. 1506 or Elizabeth Hopkins ext. 1504.) If you reach voice mail, please leave your name and number and tell us what the computer challenge is and what you would like to learn. We will assess your needs and register you for a convenient time. *Please note: sessions are for basic computer/searching questions only. We cannot troubleshoot or repair malfunctioning devices. Patrons must use provided Library laptops, not personal devices, during each session.*

### Coming this Spring: Gallery 777

We couldn't find a venue in Lisle where local artists could publicly display their paintings or other 2-D works, so we decided to create that space! This spring, look for GALLERY 777 on the lower level! Stay tuned for details on submission guidelines and exhibition applications. The official launch announcement and call for artists will appear on our website and social media platforms. Questions? Contact Tatiana Weinstein, Director of Adult Services, [Tatiana@lislelibrary.org](mailto:Tatiana@lislelibrary.org).
