From the Desk of the Director

The LLD is partnering with the Lisle Police Department in offering **Blue Envelopes**. The Blue Envelope Program is a voluntary communication tool designed to help create safer interactions between police officers and individuals who may have autism, sensory needs, memory difficulties, or other communication differences. A driver can keep their license, registration, and proof of insurance inside the blue envelope. During a traffic stop, the Blue Envelope lets an officer know that communication may need to be handled a little differently. The envelope also allows the driver to log a preferred method of communication and emergency contact information. Blue Envelopes are available at the Circulation Desk on the first floor at the LLD.
