#### INDEPENDENT AUDITORS' REPORT

To The Board of Trustees Lisle Library District Lisle, Illinois

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Lisle Library District as of and for the year ended June 30, 2017, and the related notes to the financial statements which collectively comprise the District's basic financial statements, as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Lisle Library District, as of June 30, 2017, and the respective changes in financial position, thereof for the year ended in conformity with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and certain pension disclosures be presented to supplement the basic financial statements. Such information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The major fund budgetary comparison schedules listed on the table of contents are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. This Required Supplementary Information has been subjected to the auditing procedures applied in the audit of the basic financial statements for the year ending June 30, 2017 and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

#### Other Information

Our audit was made for the purpose of forming an opinion on the financial statements that collectively comprise the Lisle Library District's basic financial statements. The combining and individual fund financial schedules for the year ended June 30, 2017 listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The combining and individual fund financial schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements for the year ended June 30, 2017 and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing procedures generally accepted in the United States of America. In our opinion, the combining and individual fund financial schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The Statistical Information listed in the accompanying table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements of the Lisle Library District. The information has not been audited by us and, accordingly, we express no opinion on such matters.

October 9, 2017 Darien, Illinois -3- Kuntle; associates, P.C.

# Lisle Library District Management's Discussion and Analysis June 30, 2017

Management's Discussion and Analysis (MD&A) is a financial narrative and overview prepared by Library Administration. The MD&A is aimed at the taxpayers and citizens of the Lisle Library District to assist the reader in understanding the Library's financial position and performance for the fiscal year ended June 30, 2017. The Library encourages citizens to read the MD&A in conjunction with the Independent Auditor's Report to enhance the reader's understanding of the Library's financial position.

#### Financial Highlights

- The Library received property (including deferred property tax revenue), TIF and replacement taxes of \$4,961,829 on an assessed valuation of \$1,178,835,794.
- As of June 30, 2017 total capital assets (facilities/land/equipment/materials) equaled \$4,186,959, restricted assets equaled \$913,308 and unrestricted amounts (incl. Special Reserves and Corporate Fund) equaled \$11,519,952, leaving the Library with a total net position of \$16,620,219.
- The Library has no debt and a relatively small amount of liabilities. Total liabilities are \$791,456.
- Investment income increased by \$1,112 or 1.66% in fiscal year 2017 from fiscal year 2016 due to stabilizing investments, increased rate of returns and longer maturities. The Library has a conservative investment policy and the majority of investments are 1-5 years in length.
- This fiscal year ended with actual budget expenditures \$267,688 under the working budget (Corporate Fund). This is largely due to five employee retirements, paying close attention to costs/renegotiating contracts and unexpended contingency funds.

#### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Library's basic financial statements. The basic financial statements consist of government-wide and fund financial statements as well as notes to the financial statements. The Library also includes additional information to supplement the basic financial statements. As of July 1, 2015, the Library District implemented GASB Statement 68, which requires the disclosure of the District's pension liabilities.

#### **Government-wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the Library's finances in a manner similar to a private sector business.

The statement of net position presents information on all of the Library's assets and liabilities with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Library is improving or deteriorating.

The statement of activities shows how the Library's net position have changed during the fiscal year. All changes in net position are reported as revenues and expenses as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Both government-wide financial statements distinguish between activities of the Library that are primarily supported by taxes and intergovernmental revenues such as grants, from activities that are intended to recover all or part of their costs from user fees and charges.

The government-wide financial statements are presented on pages 10-11 of this report.

#### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Library, like other state and local governments, uses fund accounting to ensure and to demonstrate compliance with financial requirements. All the funds of the Library can be divided into three categories: General Fund, Capital Projects Fund, and Other Governmental Funds.

Governmental funds are used to account for essentially the same functions as reported in governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, governmental funds statements focus on near-term inflows and outflows of spendable resources, as well as on spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

The Library maintains five individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General and Special Reserve Funds, both of which are considered to be major funds. Data from the other nine funds are combined into a single aggregate presentation.

The fund financial statements are presented on pages 12-13 of this report.

#### **Annual Budget**

The Library prepares and approves an annual working budget for all funds. A budgetary comparison statement has been provided for all funds to demonstrate compliance with the budget. The legal spending authority is provided in the Budget and Appropriations Ordinance which is developed after a working budget, adopted accordingly.

Comparisons for major funds can be found on pages 34-35 of this report while comparisons of non-major funds can be found on pages 38-41.

#### Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 15-30 of this report.

#### Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Library's progress in funding its obligation to provide pension benefits to its employees. IMRF Pension Disclosures information can be found on pages 31-33 within this report.

Supplementary information beginning on page 38 of this report includes budgetary comparisons for all funds other than the General and Special Reserve Funds, and certain statistical data for the last ten fiscal years.

#### **Government-Wide Financial Analysis**

The Library's net position of \$16,620,219 reflects capital assets of \$4,186,959, restricted amounts of \$913,308 and unrestricted amounts of \$11,519,952.

# Lisle Library District Summary of Net Position

#### Revenues by Source Total Governmental Funds

### Financial Analysis of the Governmental Funds

As of June 30, 2017, the Library's fund balance totaled \$7,564,817, an increase of \$747,962 from the prior year.

#### **General Fund Budgetary Highlights**

The working budget for FY 16-17 was not amended after adoption.

Actual expenditures for the year ended June 30, 2017 were \$267,688 less than budgeted due to close attention to costs/contract renegotiations, five employee retirements and unexpended contingency funds.

Actual revenues were more than budgeted amount by \$17,908 due to increases in investment income, replacement taxes and the ability to pay fines online.

#### **Capital Assets**

At the end of the fiscal year, the Library had net capital assets of \$4,186,959. This amount represents a decrease in net capital assets of \$222,904. These assets include the following categories:

# Capital Assets (Net of Depreciation)

	FY 2017	FY 2016	FY 2015	FY 2014	FY 2013
Asset

Less Accumulated Depreciation					
Land Improvements	(\$4,072,644)	(\$3,839,907)	(\$3,602,866)	(\$3,366,275)	(\$3,131,058)
Library Materials	(\$845,230)	(\$817,718)	(\$859,510)	(\$883,278)	(\$908,949)
Equipment and Furnishings	(\$761,560)	(\$694,694)	(\$608,855)	(\$523,678)	(\$477,419)
Total	(\$5,679,434)	(\$5,352,319)	(\$5,071,231)	(\$4,773,231)	(\$4,517,426)
Net Capital Assets	\$4,186,959	\$4,409,863	\$4,617,434	\$4,849,275	\$4,594,350

Additional information on the Library's capital assets can be found in note 6 on page 25 of the financial statements.

#### Other Conditions that Currently Affect the Library

The Library's tax rate is limited by tax cap legislation. This means the Library's taxes from year to year cannot increase more than the lesser of the cost of living adjustments as identified by the State of Illinois or 5%. The tax rate is based on the Equalized Assessed Valuation (EAV) of real property within the District, value of new construction within the District, and the CPI (all urban consumers).

- The equalized assessed value of property within the District has shown a slight increase due to economic rebound. This affects the overall equalized assessed value located within the Library District.
- The CPI for the next tax year is expected to be 2.1%.
- The Library's future property taxes will also be affected by the 3 TIF agreements passed by the Village of Lisle for the Navistar development, UTI campus, and the downtown area of Lisle.

The Special Reserve Fund balance in FY 2017 was \$2,666,300. The purpose of the Special Reserve Fund is to set apart and provide monies for capital projects (physical plant needs) or for emergency expenditures. The Library completed a Community Engagement Project in November of 2017 and will begin discussions in 2018 regarding a new Strategic Plan. Outcomes of these discussions may include plans for capital projects. The Library will continue to responsibly save for capital needs and improvements that benefit the residents and guide the Lisle Library District into the future.

### **Contacting the Library**

This financial report is designed to provide a general overview of the Library's finances, comply with finance related laws and regulations and demonstrate the Library's commitment to fiscal prudence. If you have any questions about this report or would like to request additional information, please contact Director Tatiana Weinstein, Lisle Library District, 777 Front Street, Lisle, Illinois 60532 or email tatiana@lislelibrary.org or call (630) 971-1675.

# Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For The Year Ended June 30, 2017

Net Change in Fund Balances - Total Governmental Funds (Combined Statement of Revenues, Expenditures, and Changes in Fund Balances)	\$ 747,962
Amounts reported for governmental activities in the Statement of Activities are different because:	
Purchases of capital assets are treated as an expenditure in the fund financial statements.	477,955
Depreciation of capital assets is not considered an expenditure in the fund financial statements.	(700,859)
Property tax revenues in the Statement of Activities that do not provide current financial resources are reported as deferred property tax revenue in the fund financial statements.	27,661
The change in the net pension liability is not considered an expenditure in the fund financial statements.	257,434
The change in IMRF Deferred Inflows is not considered an expenditure in the fund financial statements.	38,635
The change in IMRF Deferred Outflows is not considered an expenditure in the fund financial statements.	(301,020)
Adjustments for the IMRF plan year are not considered an expenditure in the fund financial statements.	(6,140)
Change in Net Position of Governmental Activities (Statement of Activities)	\$ 541,628

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Lisle Library District, DuPage County, Illinois (the Library District) is duly organized and existing under the provisions of the The Local Library Act, Chapter 81, Illinois Revised Statutes, Sec. 1-0.1, et seq., approved July 12, 1965, and all laws amendatory thereto. The Library operates under the trustee-administrator form of government, and provides a variety of library related services.

The accounting and reporting policies of the Library District relating to the funds included in the accompanying basic financial statements conform to generally accepted accounting principles (GAAP) applicable to state and local governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant policies.

#### A. Reporting Entity

The Library District follows the provisions of Governmental Accounting Standards Board Statement No. 39, "Determining Whether Certain Organizations Are Component Units – an amendment of GASB Statement No. 14". As defined by generally accepted accounting principles established by GASB, the financial reporting entity consists of the primary government, as well as its component units, which are legally separate, tax-exempt entities and meet all of the following criteria:

- The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents.
- 2. The primary government, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization.
- The economic resources received or held by an individual organization that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to that primary government.

The Library District has concluded that no entities meet the criteria of Statement 39 for inclusion as a component unit. Likewise, the Library District is not required to be included as a component unit of any other entity.

#### B. GASB Pronouncements

In June 1999, the GASB issued Statement No. 34, "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments." This Statement establishes new financial reporting requirements for State and Local Governments throughout the United States. The requirements of this Statement are effective in three phases based on a government's total revenues in the first year ending after June 15, 1999. The Library District has adopted this Statement for the period beginning July 1, 2004.

Governmental Accounting Standards Board Statement No. 61, "The Financial Reporting Entity," is an amendment of GASB Statements No. 14 and No. 39, which does not have an impact on the current year financial statements.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### B. GASB Pronouncements (Continued)

As of July 1, 2012, the Library District has implemented GASB Statement No. 63, "Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position." The objective of this Statement is to improve financial reporting by standardizing the presentation of deferred outflows of resources and deferred inflows of resources and their effect on a government's net position.

As of July 1, 2012, the Library District has implemented GASB Statement No. 65 "Items Previously Reported as Assets and Liabilities." The objective of this statement is to establish accounting and financial reporting standards that reclassify as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities. The Statement also recognizes as outflows of resources or inflows of resources certain items that were previously reported as assets and liabilities.

As of July 1, 2014, the Library District has implemented GASB Statement No. 68 "Accounting and Financial Reporting for Pensions" which is an amendment of GASB Statement No. 27. The objective of this statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency.

Under the implementation of GASB 68, the Library District has also implemented GASB No. 71 "Pension Transition for Contributions Made Subsequent to the Measurement Date" – an amendment of GASB No. 68.

#### C. Basis of Presentation

#### **GOVERNMENT-WIDE FINANCIAL STATEMENTS**

The Statement of Net Position and the Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. The Library District allocates indirect expenses to functions in the Statement of Activities in cases where a clear and direct connection exists. Program revenues include charges to residents who purchase, use or directly benefit from goods, services, or privileges provided by a given function, and grants and contributions that are restricted to meeting the operational and capital requirements of a particular function. Taxes and other income items that are not specifically related to a function are reported as general revenues.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of Presentation (Continued)

#### **FUND FINANCIAL STATEMENTS**

Fund financial statements of the reporting entity are organized into individual funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets and deferred outflows, liabilities and deferred inflows, fund equity, revenues, and expenditures/expenses. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions.

Funds are organized as major funds or non-major funds within the governmental and proprietary statements. A fund is considered major if it is the primary operating fund of the entity or meets the following criteria:

- Total assets and deferred outflows, liabilities and deferred inflows, revenues or expenditures/expenses of the individual governmental fund or enterprise fund are at least ten percent of the corresponding total for all funds of that category or type and
- Total assets and deferred outflows, liabilities and deferred inflows, revenues or expenditures/expenses of the individual governmental or enterprise fund are at least five percent of the corresponding total for all governmental and enterprise funds combined.

#### Governmental Funds (Governmental Activities)

Governmental fund types are those through which most governmental functions of the Library District are financed. The Library District's expendable financial resources (except those accounted for in the proprietary funds) are accounted for through governmental funds. The measurement focus is based upon determination of changes in financial position rather than upon net income determination. A brief explanation of the Library District's governmental funds follows:

#### General Fund

The General Fund is the general operating fund of the Library District. It is used to account for and report all financial resources not accounted for or reported in another fund.

#### Special Revenue Funds (Other Governmental Funds)

Special Revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Funds included in this category are:

Building Maintenance Illinois Municipal Retirement Social Security

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### C. Basis of Presentation (Continued)

#### FUND FINANCIAL STATEMENTS (CONTINUED)

Governmental Funds (Governmental Activities) (Continued)

#### Capital Projects Fund (Special Reserve Fund)

The Capital Projects Fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays including the acquisition or construction of capital facilities and other capital assets, excluding those types of capital related outflows financed by proprietary funds.

#### Permanent Fund (Other Governmental Funds)

The Working Cash Fund holds monies obtained through a special tax levy, which is to be used to temporarily finance cash flow shortages in the various governmental fund types.

#### MAJOR FUNDS

The Library District reports the following major governmental funds:

- The General Fund, which accounts for the library district's primary operating activities.
- The Capital Projects Fund, which accounts for financial resources to be used for the acquisition or construction of major capital facilities, equipment, and capital asset replacements.

#### NON-MAJOR FUNDS (Other Governmental Funds)

The Library District reports the following non-major governmental funds:

- Building Maintenance Fund
- Illinois Municipal Retirement Fund
- Social Security Fund
- Working Cash Fund

During the prior fiscal year, the Board of Trustees approved Ordinance 16-02, an Ordinance approving the closing out of the Audit, Liability Insurance, Tort Judgement, Workers' Compensation, and Unemployment Compensation funds. These fund balances were transferred from their respective Special Revenue Funds to the General Fund.

#### D. Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, governmental activities are presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or the economic asset is used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Property taxes are recognized as revenues in the year for which they are levied.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### D. Basis of Accounting (Continued)

Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The current financial resources measurement focus and the modified accrual basis of accounting are followed by the governmental funds. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual, i.e., both measurable and available to finance the Library District's operations. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

#### E. Measurement Focus

On the government-wide Statement of Net Position and Statement of Activities, governmental activities are presented using the flow of economic resources measurement focus, which means all assets, deferred outflows, liabilities (whether current or non-current), and deferred inflows are included on the Statement of Net Position and the operating statements present increases and decreases in net total position.

The measurement focus of all governmental funds is the flow of current financial resources concept. Under this concept, sources and uses of financial resources, including capital outlays, debt proceeds and debt retirements are reflected in operations. Resources not available to finance expenditures and commitments of the current period are recognized as deferred revenue or a reservation of fund equity. Liabilities for claims, judgments, compensated absences and pension contributions, which will not be currently liquidated using expendable available financial resources are included as liabilities in the government-wide and proprietary fund financial statements, but are excluded from the governmental fund financial statements. The related expenditures are recognized in the governmental fund financial statements when the liabilities are liquidated.

#### F. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

#### G. Budgetary Data and Budgetary Basis of Accounting

Budgets and appropriations for the General and Special Revenue Funds are prepared on the same basis and use the same accounting practices as are used in the fund financial statements.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Budgetary Data and Budgetary Basis of Accounting (Continued)

For each fund, total fund expenditures disbursed may not legally exceed the appropriated amounts. The budget lapses at the end of each fiscal year. The Library District follows these procedures in establishing the budgetary data reflected in the financial statements

- The Appropriation Ordinance is prepared in tentative form by the Treasurer and is made available for public inspection at least 30 days prior to final Board action. By the fourth Tuesday in September, a public hearing is held on the tentative Appropriation Ordinance to obtain taxpayer comments and pass the Ordinance in final form.
- The Board of Trustees may:
  - Adopt a supplemental Appropriation Ordinance for revenues which become available, or are estimated to become available, subsequent to the adoption of the annual Appropriation Ordinance.
  - After six months of the fiscal year, by two-thirds vote, transfer any appropriation item it anticipates being unexpended to any other appropriation item.
- The Library Board may accumulate and set apart, as reserve funds, for the purchase, construction, rental and/or repair of Library buildings and equipment, the unexpended balances of the proceeds annually received from taxes, not to exceed the statutory limits, provided the Library Board in its annual Appropriation specifies that a specific fund is to be or is being accumulated for this purpose.
- The Library District does not use the encumbrance method of accounting. Budgetary funds are controlled by an integrated budgetary accounting system, in accordance with various legal requirements which govern the Library District.

#### H. Cash and Cash Equivalents

The Library District considers all highly liquid investments with an initial maturity date within three months of the date acquired by the Library District and investment pools to be cash equivalents.

State Statutes authorize the Library District to make deposits or invest in commercial banks, savings and loan institutions, obligations of the United States Treasury and United States Government Agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States Government, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, and the Illinois Funds Investment Pool.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Investments

Investments with maturities of one year or more from the date of purchase are stated at fair value based on quoted market prices. Investments with maturities of one year or less from the date of purchase are stated at amortized cost. All other investments which do not consider market rates are stated at cost. Unrealized gains and losses are recognized in the statement of revenues and expenditures. Investment income has been allocated to each fund based on the cash and investments held by the fund.

#### J. Prepaid Expenses/Expenditures

Payments made to vendors for services that will benefit periods beyond June 30, 2017 are recorded as prepaid expenses/expenditures.

#### K. Capital Assets

The accounting treatment over property, plant, and equipment (capital assets) depends on whether the assets are reported in the government-wide or fund financial statements.

#### GOVERNMENT-WIDE FINANCIAL STATEMENTS

In the government-wide financial statements, fixed assets are accounted for as capital assets. All capital assets are valued at historical cost, or estimated historical cost if actual cost is unavailable. Donated capital assets are stated at their fair market value as of the date donated. The Library District has adopted a capitalization threshold of \$2,500.

Prior to July 1, 2004, capital assets of governmental funds were accounted for in the general fixed assets account group and were not recorded directly as a part of any individual fund's financial statements. Infrastructure of governmental funds was not previously capitalized. Upon implementing GASB 34, governmental units are required to account for all capital assets, including infrastructure, in the government wide financial statements prospectively from the date of implementation.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Building and Land Improvements 20 years
Buildings 40 years
Library Materials 5 years
Equipment and Furnishings 5 to 20 years

#### **FUND FINANCIAL STATEMENTS**

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlays in the fund from which the expenditure was made. Public domain (infrastructure) assets consisting of roads, curbs and gutters, sidewalks, drainage systems, and lighting systems are not capitalized in the fund financial statements.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### K. Capital Assets (Continued)

#### FUND FINANCIAL STATEMENTS (CONTINUED)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not included as capitalized assets or capitalized in the proprietary funds.

#### L. Accrued Vacation

Employees of the Library District can accumulate up to 75 hours of vacation time that is payable upon termination. This liability is accounted for as a governmental activity on the Government-Wide Statement of Net Position and in the Fund Financial Statements.

#### M. Property Taxes

The Library District's property taxes are required to be levied not earlier than ten days after publication of its Appropriation Ordinance, and must be filed with the county clerk not later than the last Tuesday in December of each year. Taxes are due and collectible one-half on June 1 and one-half on September 1 of the following year. Property taxes attach as an enforceable lien on property as of January 1.

Property tax distributions are based on the assessed valuation of the Library District's real property as equalized by the state of Illinois. The estimated equalized assessed valuation of real property totaled \$1,178,835,794 for the 2016 tax year. Due to historically high collection rates, the Library District has not recorded an allowance for uncollectible property taxes. Any uncollected taxes relating to prior years' levies are written off.

#### N. Equity Classifications

#### **GOVERNMENT-WIDE FINANCIAL STATEMENTS**

Equity is classified as net assets and displayed in three components:

- Net Investment in Capital Assets consists of capital assets, net of accumulated depreciation and related debt, if applicable.
- Restricted Amounts consists of amounts with constraints placed on their use either by external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or law through constitutional provisions or enabling legislation.
- Unrestricted Amounts consists of all other amounts that do not meet the definition of restricted or invested in capital assets.

#### **FUND FINANCIAL STATEMENTS**

Governmental fund equity is classified as fund balance. The components of fund balance are:

• Non-spendable – consists of resources that cannot be spent because they are either: a) not in a spendable form; or b) legally or contractually required to be maintained intact.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

N. Equity Classifications (Continued)

#### FUND FINANCIAL STATEMENTS (CONTINUED)

- Restricted consists of resources that are restricted to specific purposes, that is, when
  constraints placed on the use of resources are either: a) externally imposed by creditors
  (such as through debt covenants), grantors, contributors, or laws and regulations of
  other governments; or b) imposed by law through constitutional provisions or enabling
  legislation.
- Committed consists of resources constrained (issuance of an ordinance) to specific
  purposes by the government itself, using its highest level of decision-making authority,
  the Board of Trustees; to be reported as committed, amounts cannot be used for any
  other purpose unless the government takes the same highest-level action to remove or
  change the constraint.
- Assigned amounts that are constrained by the Board of Trustees' intent to be used for specific purposes but are neither restricted nor committed. Intent is expressed by (a) the Board of Trustees itself or (b) a body or official to which the Board of Trustees has delegated the authority to assign amounts to be used for specific purposes. The District's highest level of decision-making authority is the Board of Trustees, who is authorized to assign amounts to a specific purpose.
- Unassigned consists of the residual net resources of a fund that has not been restricted, committed, or assigned within the general fund and deficit fund balances of other governmental funds.

The Library District's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. If different levels of unrestricted funds are available for spending, the Library District considers committed funds to be expended first followed by assigned and, lastly, unassigned funds.

		Special	Go	Other vernmental		
Fund	General	Reserve		Funds		Total
Non-spendable

Unassigned	 3,937,370	 0		0		3,937,370
	\$ 3,985,209	\$ 2,666,300	\$	913,308	<u>\$</u>	7,564,817

#### NOTE 2 - CASH AND INVESTMENTS

At June 30, 2017, the carrying amount of the Library District's deposits was \$6,657,413, not including a petty cash fund of \$400 kept in the administrative office and the bank balance was \$6,622,012. The deposits are categorized in accordance with risk factors created by governmental reporting standards.

Included in deposits at June 30, 2017, the Library District maintained a balance in the Illinois Funds of \$1,294,551. These pooled investments with other governments are similar in nature to money market funds and consist primarily of certificates of deposit, U.S. Government securities, commercial paper, and corporate bonds.

As of June 30, 2017, the market value and cost of the Library District's investments, which consist primarily of Federal agency securities, is \$3,514,829 and \$3,556,228, respectively. The unrealized loss on investments for the year ended June 30, 2017 is \$22,837, which is included in investment income in the government-wide financial statements.

#### NOTE 3 - COMMON BANK ACCOUNT

Separate bank accounts are not maintained for all of the Library District's funds. Instead, certain funds maintain their uninvested cash balances in a common bank account, with accounting records being maintained to show the portion of the balance attributable to each participating fund.

#### NOTE 4 - POLICIES FOR INVESTMENTS

It is the policy of the District to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the District and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objective of the policy is safety (preservation of capital and protection of investment principal), liquidity and yield.

Custodial credit risk for deposits with financial institutions is the risk that in the event of a bank's failure, the District's deposits may not be returned to it. The District's investment policy requires pledging of collateral of all bank balances in excess of federal depository insurance with the collateral held by a third party in the District's name.

The District limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by primarily investing in obligations guaranteed by the United States Government or securities issued by agencies of the United States Government that are explicitly or implicitly guaranteed by the United States Government.

#### NOTE 5 - RISK MANAGEMENT

The Library District is exposed to various risks related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; or acts of God. The Library District has secured insurance coverage through Matsock Insurance Agency, Naperville, Illinois. These commercial policies involve immaterial deductibles, and provide sufficient coverage to reduce the risk of any material loss.

#### NOTE 6 - CAPITAL ASSETS

A summary of changes in governmental capital assets is as follows. Depreciation expense for governmental capital assets for the year ended June 30, 2017 is \$700,859.

	Ju	Balance ne 30, 2016	Additions Disposals			Ju	Balance June 30, 2017	
Capital Assets

Net Capital Assets	\$	4,409,863	\$	(222,904)	\$	0	\$	4,186,959

#### NOTE 7 - EXPENDITURES IN EXCESS OF BUDGET

At June 30, 2017, the following fund had expenditures in excess of budgeted expenditures:

Fund	Actual	Budget
Building Maintenance	\$ 142,167	\$ 134,500

#### NOTE 8 - DEFICIT FUND BALANCES

At June 30, 2017, none of the Library District's funds had a deficit balance.

#### NOTE 9 - SUBSEQUENT EVENTS

The date to which events occurring after June 30, 2017, the date of the most recent balance sheet, have been evaluated for possible adjustment to the financial statements or disclosure is October 9, 2017, the date the financial statements were available to be issued.

#### NOTE 10 - PENSION PLAN COMMITMENT

Plan Description. The employer's defined benefit pension plan for Regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The Library District plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained on-line at <a href="https://www.imrf.org">www.imrf.org</a>.

Funding Policy. As set by statute, the Library District Regular plan members are required to contribute 4.50 percent of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer contribution rate from calendar year 2016 was 11.25 percent. The Library District also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Annual Pension Cost. The required contribution for calendar year 2016 was \$207,454.

# SUMMARY OF ACTUARIAL METHODS AND ASSUMPTIONS USED IN THE CALCULATION OF THE TOTAL PENSION LIABILITY

#### Methods and Assumptions Used to Determine Total Pension Liability:

Actuarial Cost Method Entry-Age Normal
Asset Valuation Method Market Value of Assets

Inflation3.50%Price Inflation2.75%

Salary Increases 3.75% to 14.5%, including inflation

Investment Rate of Return 7.49%

Other Information:

Retirement Age Experience-based table of rates that are specific to the type of

eligibility condition. Last updated for the 2014 valuation pursuant

to an experience study of the period 2011-2013.

Mortality For non-disabled retirees, an IMRF specific mortality table was

used with fully generational projection scale MP-2014 (base year 2012). the IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). the IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality table applying the same adjustment that was applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Employee Mortality

Table with adjustments to match current IMRF experience.

There were no benefit changes during the year.

#### NOTE 10 - PENSION PLAN COMMITMENT (CONTINUED)

#### CALCULATION OF THE SINGLE DISCOUNT RATE

GASB Statement No. 68 includes a specific requirement for the discount rate that is used for the purpose of the measurement of the Total Pension Liability. This rate considers the ability of the fund to meet benefit obligations in the future. To make this determination, employer contributions, employee contributions, benefit payments, expenses and investment returns are projected into the future. The Plan Net Position (assets) in future years can then be determined and compared to its obligation to make benefit payments in those years. As long as assets are projected to be on hand in a future year, the assumed valuation discount rate is used. In years where assets are not projected to be sufficient to meet benefit payments, the use of a "risk-free" rate is required, as described in the following paragraph.

The single discount rate (SDR) is equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods. The SDR reflects (1) the long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.50%; the municipal bond rate is 3.78%; and the resulting single discount rate is 7.50%.

# SENSITIVITY OF NET PENSION LIABILITY/(ASSET) TO THE SINGLE DISCOUNT RATE ASSUMPTION

	Current Single Discount										
	19	% Decrease	Rate	e Assumption	1	% Increase					
		6.50%		7.50%	8.50%						
Total Pension Liability	\$	12,161,061	\$	10,855,834	\$	9,771,024					
Plan Fiduciary Net Position		10,231,110		10,231,110		10,231,110					
Net Pension Liability/(Asset)	\$ 1,929,951		\$	624,724	\$	(460,086)					

## Lisle Library District IMRF Pension Disclosures For The Year Ended June 30, 2017

In accordance with GASB Statement No. 68, "Accounting and Financial Reporting for Pensions – An Amendment of GASB Statements No. 27", the financial statements of employers also include required supplementary information showing the 10-year fiscal history of:

- Sources of changes in the net pension liability;
- Information about the components of the net pension liability and related ratios, including the pension plan's fiduciary net position as a percentage of the total pension liability, and the net pension liability as a percent of covered-employee payroll, and
- Comparison of actual employer contributions to the actuarially determined contributions based on the plan's funding policy.

#### MULTIYEAR SCHEDULE OF CONTRIBUTIONS Last 10 Plan Years (When Available)

Plan Year Ending December 31	Actuarially Determined Contribution	Actual <u>Contribution</u>	Contribution Deficiency (Excess)	Covered Valuation Payroll	Actual Contribution as a % of Covered Valuation Payroll
2016	\$ 207,454	* \$ 407,454	(200,001)	\$ 1,844,038	22.10%
2015	217,558	417,559		1,789,131	23.34%
2014	246,446	446,445		1,687,754	26.45%

<sup>\*</sup> Estimated based on contribution rate of 11.25% and covered valuation payroll of \$1,844,038.

#### NOTES TO SCHEDULE OF CONTRIBUTIONS

<u>Valuation Date:</u>
Actuarially determined contribution rates are calculated as of

December 31st of each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

#### Methods and Assumptions Used to Determine 2016 Contribution Rates:

Actuarial Cost Method Aggregate Entry-Age Normal
Level Percentage of Payroll, Closed

Remaining Amortization Period Non-Taxing bodies : 10-year rolling period.

Taxing bodies (Regular, SLEP and ECO groups): 27-year closed period until remaining period reaches 15 years (then 15-year rolling

period).

Early Retirement Incentive Plan liabilities: a period up to 10 years

selected by the Employer upon adoption of ERI.

SLEP supplemental liabilities attributable to Public Act 94-712 were financed over 22 years for most employers (two employers were

fnanced over 31 years).

Asset Valuation Method 5-Year smoothed market; 20% corridor

Wage Growth 3.50%

Price Inflation 2.75% - approximate; No explicit price inflation assumption is used

in this valuation.

Salary Increases 3.75% to 14.50% including inflation

Investment Rate of Return 7.50%

Retirement Age Experience-based table of rates that are specific to the type of

eligibility condition. Last updated for the 2014 valuation pursuant to

an experience study of the period 2011-2013.

Mortality For non-disabled retirees, an IMRF specific mortality table was used

with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Employee Mortality

Table with adjustments to match current IMRF experience.

Other Information: There were no benefit changes during the year.
