Bartelli, Duffy, Hummel, Larson, Norton, Sullivan, Swistak
10. Adjourn

LISLE LIBRARY DISTRICT
BOARD MEETING
February 12, 2020 - 7:00 p.m.

1. Roll call

Present:

Thomas Hummel - President
Marjorie Bartelli - Vice President
Jenny Norton - Treasurer
Emily Swistak - Secretary
Thomas Duffy - Trustee
Karen Larson - Trustee
Liz Sullivan - Trustee

Also present:

Tatiana Weinstein - Director
Beth McQuillan - Assistant Director
Chris Knight - Recording Secretary
Marc Rogers - CCS International Inc., Project Manager

2. Opportunity for visitors to speak

One visitor addressed the Board. She read aloud a book excerpt dedicated to all librarians.

3. Assignments for reviewing monthly accounts payable

- a. President Hummel and Trustee Duffy reviewed the January billings in February
- b. Secretary Swistak and Trustee Sullivan will review the February billings in March

4. Consent Agenda

- a. Approve Minutes of the January 15, 2020 Board Meeting
- b. Acknowledge Treasurer's Report, 01/31/20, Investment Activity Report, 01/31/20, Current Assets Report, 01/31/20, Revenue Report, 01/31/20, and Expense Report, 01/31/20
- c. Authorize Payment of Bills, 02/12/20

MOTION: Secretary Swistak moved to approve the Consent Agenda. Treasurer Norton seconded.

Roll Call Vote - All Aye. The motion passed.

5. Committee Reports

- a. Finance - Treasurer Norton mentioned that there was nothing to report.
- b. Personnel/Policy - Secretary Swistak announced that there would be a meeting on Friday, February 21st at 6:00 pm.
- c. Physical Plant - Vice President Bartelli mentioned that there was nothing to report.

6. Unfinished Business

Facility options: CCS update and discussion

Marc Rogers provided an update on the facility options process, Flaherty & Collins, and the VOL's EDC.

Discussion: Trustee Larson asked about F&C's request for funding a parking garage. Mr. Rogers explained that funding discussions are negotiated and go through a process. Trustee Larson asked how long that would take. Mr. Rogers estimated that discussions may last another month or two. Trustee Larson asked about remediation regarding the gas station and dry cleaners. Mr. Rogers clarified that the properties are privately owned and that the Village does not have public records regarding her question. Vice President Bartelli said she spoke to Mike Smetana at the Village regarding remediation and was informed that remediation is ongoing.

Vice President Bartelli asked about the TIF. Mr. Rogers provided a general overview of TIFs. Trustee Sullivan asked if TIFs weren't a good idea for residential developments. Mr. Rogers explained that TIFs are utilized for all types of areas. Trustee Sullivan asked about the TIF for the apartments off Warrenville Road. President Hummel commented that there was no TIF on that property. Trustee Sullivan said she requested that a TIF consultant be available for questions. President Hummel stated that it is not the right time for such a consultant. Mr. Rogers recommended that the LLD let the process between the Village and the developer progress. Trustee Duffy commented that the LLD Board has no control regarding the TIF. President Hummel commented that the LLD has a minimal role. Director Weinstein explained the LLD is a member of the TIF Joint Review Board, in an advisory capacity. Trustee Sullivan asked if the LLD has a right to not be a part of the TIF. President Hummel stated the LLD is afforded an advisory vote.

Mr. Rogers continued his update regarding a process-oriented checklist regarding critical projects, funding, identified needs, and timing.

Discussion: President Hummel asked the Board if they were amenable to wait to hear results of Village and F&C discussions. Vice President Bartelli mentioned a timeline. Mr. Rogers suggested that instead of a timeline, the Board use a process-oriented checklist. Trustee Duffy appreciated that steps were being taken and that he agreed to a process-based approach. Trustee Sullivan asked about the EDC packet. Director Weinstein stated that she picked one up at the morning meeting and could scan and email it to the Board.

Vice President Bartelli mentioned addressing repairs while the Board waits. Director Weinstein provided an overview of facility projects that are currently advancing. Trustee Sullivan stated she has not spoken to anyone who would like the Library to relocate. Secretary Swistak stated that she spoke to a few mothers at the Park District who would love the Library to be downtown. Trustee Sullivan asked if the Library would still be able to conduct outdoor events in a downtown scenario. Director Weinstein and President Hummel suggested utilizing the museum campus and/or blocking a street similar to the car shows. Trustee Sullivan suggested setting a timeline regarding renovation via a vote at the next meeting. President Hummel stated that a majority of the Board currently agrees with a process-based approach.

Trustee Duffy commented that the Board has a unique opportunity and has to think about the next 20-30 years. Director Weinstein asked the Board if they would agree to work with CCS at an hourly rate during this period. The Board agreed. Mr. Rogers suggested that while the Board waits, to discuss the general steps regarding relocation or renovation, such as hiring an engineer or architect.

7. Staff Reports

Director Weinstein mentioned attending an intergovernmental meeting with President Hummel, the Joint Review Board, meeting with DuPage Pistol Shrimp representatives, and Census 2020 training for librarians. Director Weinstein discussed data concerning Library card-holders within seven zones in the District.

Discussion: Trustee Sullivan asked if there were statistics that address digital circulation and program visits. Director Weinstein mentioned that those statistics were provided in a previous trend report. Director Weinstein suggested updating and reviewing the report annually.

Director Weinstein mentioned that she, President Hummel, and Vice President Bartelli attended the Village Economic Development Commission meeting in the morning. The meeting included discussion about parking in the downtown area, the possibility of dissolving the downtown TIF, technology companies moving into office buildings on Warrenville Road, and the consequences of negative social media posts regarding Lisle.

Discussion: Trustee Duffy mentioned hearing about a small business owner having problems registering with My Library Rewards. Trustee Sullivan mentioned that there was an official parking study conducted by the Village. Vice President Bartelli asked if all of the roof repairs were completed. Assistant Director McQuillan stated that they were completed. Vice President Bartelli asked if the HVAC fire safety project was still on schedule. Assistant Director McQuillan stated it was still on schedule. Vice President Bartelli asked about the water heater. Assistant Director McQuillan stated a new water heater was installed the prior day.

8. Opportunity for Trustee comments (five minutes)

Trustee Sullivan thanked Director Weinstein for her flexibility regarding some requested changes and for thoughtfully explaining her answers. Secretary Swistak mentioned how much her children enjoy Saturday programming and that she is looking forward to Harry Potter Day on March 7th. Treasurer Norton suggested having another community-wide survey regarding the facility.

9. New Business

- a. Semi-annual review of executive session minutes - Action Required
Six month review of executive session minutes to release or to remain closed.
- b. Review of executive session recordings more than 18 months old - Action Required
Six month review of executive session recordings to retain or destroy.

10. Executive Session

MOTION: Secretary Swistak moved to go into Executive Session according to 5 ILCS 120/2(c)(21): Discussion of minutes of meetings lawfully closed under this Act, whether for purposes of approval by the body of the minutes or semi-annual review of the minutes as mandated by Section 2.06. Trustee Duffy seconded. Roll Call Vote - All Aye. The motion passed.

The Board voted to go into Executive Session at 8:20 p.m.

The Board came back into Open Session at 8:31 p.m.

MOTION: Secretary Swistak moved to release the August 14, 2019 Executive Session minutes. Trustee Duffy seconded.

Roll Call Vote - All Aye. The motion passed.

MOTION: Secretary Swistak moved to destroy the following Executive Session recordings more than 18 months old; February 14, 2018 and August 8, 2018. Trustee Duffy seconded.

Roll Call Vote - All Aye. The motion passed.

11. Adjourn

MOTION: Secretary Swistak moved to adjourn the meeting. Treasurer Norton seconded.

Voice Vote - All Aye

The meeting adjourned at 8:34 p.m.

Recorded by

Chris Knight, Recording Secretary

Approved by the Board of Trustees on March 11, 2020.

Approved by

Emily Swistak, Secretary of the LLD Board of Trustees

CCS Status Updates & Supplement for the March 2020 Board Meeting:

Status Updates:

A. Potential Project Funding / Budget

- If the Library chooses to utilize an alternative revenue bond and available reserves a project in the range of \$4M to \$10M +/- can be funded without any tax increase.

B. Schedule

- The Library is proceeding with a process based schedule. Current decision making checklist steps are as follows:

- i. Critical Existing Building Projects
 - FQC's recommended critical actions – *completed based on discussion in February Board meeting*
- ii. Funding
 - Reserves and bonding options reviewed – *preliminary identification completed*
- iii. Identified Needs
 - Facility Condition Assessment – *completed*
 - Spatial Needs Identification – *preliminary identification completed*
- iv. Library Facility Location Considerations
 - Additional Outreach – *for discussion*
 - Flaherty & Collins' economic submittal to the Village is under review - *pending*
- v. Next Steps
 - Design Consultant RFQ – *for discussion* – see page 2

CCS RFQ Process Supplement:

Design Team Procurement Process outlined below:

RFQ Process Steps	Typical Duration	Participants
RFQ Development*	1 month	Board / CCS / Director
Advertisement / Issue RFQ	1 day	CCS / Director
RFQ Submission Window	2 weeks	-
Evaluate Responses	1 week	CCS / Director
Notification of Shortlist Status	1 day	CCS
Qualification Checks	1 week	CCS / Director
Notify Selected Finalists	1 day	CCS
Reference Checks / Project Visits	2 weeks	Board / CCS / Director
Interviews: Special Board Meeting	1 day	Board / CCS / Director

*Note a draft RFQ will be developed for the Lisle Library Board to “fill in the blanks” on items such as:

- **Project Scope** (cost dependent)
- **Project Location** (existing building or downtown Lisle)

A preliminary draft can be developed for the April/May 2020 Board meeting to initiate scope outlining.

To: LLD Board of Trustees
From: Tatiana Weinstein | LLD Director
Date: March 9, 2020

March Director's Report

Meetings:

Board – Feb 12
EDC – Feb 12
Dept Director – Feb 13
Staff – Feb 18
Swistak – Feb 18

Dept Directors – Feb 20
Personnel/Policy Committee – Feb 21
CCS – Feb 27
Dept Directors – Feb 27
Friends – Feb 28

Highlights/Developments

Census 2020

This month, District residents will receive invitations to complete the 2020 Census. The LLD has public computers, WiFi, and Librarians to assist residents in completing the online form. Complete Census 2020 information can be found at lislelibrary.org, under the “Services” drop-down tab.

The LLD is encouraging all residents to fill out the Census via weekly social media posts and signage throughout the facility. This is important because state and local municipalities receive funding based on population. Organizations like ours use these numbers in strategic planning. Making sure we are counted is essential for future development and for understanding the needs of our community.

Public Health

The COVID-19 threat is affecting all public spaces and organizations. The LLD is regularly posting public service announcements via social media, highlighting important agency links and access to relevant databases. The LLD has stepped-up its provision of hand-sanitizer pumps at all public service desks, as well as anti-bacterial wipes.

Last week, the LLD also installed six, touch-free, foam dispensing units around the facility. The sanitizing foam is broad spectrum/tested to eliminate up to 99.99% of common germs. The foam is free of perfumes and dyes.

Additionally, LLD staff are diligently sanitizing desk areas, phones, doorknobs, elevator buttons, and bannisters on a regular basis. Making sure our facility is as hygienic as possible is our goal during this challenging time.

To: LLD Board of Trustees
From: Tatiana Weinstein | LLD Director
Date: March 9, 2020

Friends of the Lisle Public Library District (FLPLD)

I had the pleasure of meeting with FLPLD Board member Cathy Cawiezel on February 28th. I was introduced to two *new* FLPLD Board members, Sue Ekins and Rose Sepeda. We discussed FLPLD history and future goals. The FLPLD has initiated a fundraiser in April. The *Country House* in Lisle will donate 15% of a purchase to the FLPLD during the week of April 20-26.

Having a full complement of Board members must be very gratifying for the FLPLD. In meeting with the new Board, I see a bright future for the organization, and continued support for the LLD. The new members have been added to the Friends page on the LLD website.

Harry Potter Day 2020

There is no denying that Lisle loves Harry Potter/J.K. Rowling! On Saturday, March 7th, the LLD hosted its third *Harry Potter Day*. This all-ages event brought 550 fans to our facility. The program featured a scavenger hunt, potions lab, animals provided by *Crosstown Exotics*, photo-booth, themed snacks, book table, Hogwarts crafts, and spray-on Harry Potter tattoos.

I want to thank the LLD staff and volunteers for making the day a huge success. These library-wide events are incredibly entertaining, but they are also a great deal of work. Kudos to the staff who planned and promoted the event, prepared the activities, greeted visitors, staffed the various themed rooms, photographed attendees, and who helped clean up.

A photo-collage follows this report. All photos/videos are available on LLD social media sites.

Library News

This month the Board received the following articles/information that pertain to facility enhancements:

- **Joliet Public Library Interior Renovation Project Approved**, by RAILS/Mallory Hewlett: documenting a renovation after strategic planning, bonding, and saving via special reserves. Notably adding innovative spaces and redirecting their entrance.
- **Brookfield Library set to break ground in April**, by Bob Uphues; *Riverside/Brookfield Landmark/Feb. 2020*: Local news report re Brookfield Public Library construction project. Article discusses bidding, large donor, and relocation.
- The **New Library Buildings 2019** issue of the *ILA Reporter*. Lots of relevant information concerning renovations and new buildings, costs documented.

Respectfully submitted,

Tatiana Weinstein

March 2020 Assistant Director Report

Meetings

- Legislative Meet-up – Feb 3
- Event Team – Feb 4 & 25
- PIC Training staff – Feb 5 & 8
- Eco Clean – Feb 6
- Patriot Electric – Feb 7 & 11
- OSG – Feb 10
- SCARCE audit – Feb 11
- Stephens Plumbing – Feb 11
- Board meeting – Feb 12
- Precision – Feb 14
- Staff Meeting – Feb 18
- Midco – Feb 19
- Elkay – Feb 19
- Volunteer – Feb 20
- Stephens Plumbing – Feb 25

Event Team

Staff planned a successful Harry Potter Day on Saturday, March 7th, from 1-3pm. New this year, LLD featured a potion lab with experiments and take home recipes to recreate the experiments. Other activities included exotic animals, photo booth, crafts, spray on tattoos, snacks, and Harry Potter materials to check-out.

Staff are planning National Library Week April 19 - 25. Activities include a family craft night Tuesday, April 21, author visit and book signing Thursday, April 23 from psychological suspense novelist, Mary Kubica, and creative storytimes, and outreach activities with the character, *Bruce the Bear*.

Staff are also planning summer activities with Summer Read set to kick-off Saturday, May 30th.

FACILITY:

Paging

Staff tested the public speakers throughout the building including meeting room, public floors, rest rooms and two study spaces. Midco, a security solutions company, also tested the speakers and is planning for additional speakers in study spaces near fiction, the lobby, and Youth Services floor. The Library's current wiring system cannot support an independent intercom system.

Water fountain bottle filler

A bottle filler was retrofitted to the lobby drinking fountain. The water station enhances sustainability by minimizing dependence on disposables. The bottle filler is ADA compliant. A readout shows the number of disposable bottles saved from waste by using the bottle filler.

HVAC Duct Sensitivity Replacement Project

Finalization for replacing the duct sensitivity equipment with updated fire alarm connections per Village code is underway. Johnson Controls has worked with FSCI fire safety consultants and the Village of Lisle. LLD has received the permit for the work from the Village and installation is being coordinated with Johnson Controls.

Meetings

Jackie Kilcran, LLD Administrative Office Coordinator, and I took part in a LIRA webinar on sexual harassment and changes to laws in 2020. Gallagher and Bassett Insurance presented an overview of changes to Illinois law with the Workplace Transparency Law of August 2019. This includes restrictions on employee agreements, creates annual harassment training requirements and disclosure of harassment claims.

A handwritten signature in black ink that reads "Beth McQuillan". The signature is written in a cursive, flowing style.

Beth McQuillan

CONSUMER PRICE INDEX – JANUARY 2020

The Consumer Price Index for All Urban Consumers (CPI-U) rose 0.1 percent in January on a seasonally adjusted basis, after rising 0.2 percent in December, the U.S. Bureau of Labor Statistics reported today. Over the last 12 months, the all items index increased 2.5 percent before seasonal adjustment.

The index for shelter accounted for the largest part of the increase in the seasonally adjusted all items index, with the indexes for food and for medical care services also rising. These increases more than offset a decrease in the gasoline index, which fell 1.6 percent in January. The energy index declined 0.7 percent, and the major energy component indexes were mixed. The index for food rose 0.2 percent in January with the indexes for both food at home and food away from home increasing over the month.

The index for all items less food and energy rose 0.2 percent in January after increasing 0.1 percent in December. Along with the indexes for shelter and medical care, the indexes for apparel, recreation, education, and airline fares all increased in January. The indexes for used cars and trucks, prescription drugs, motor vehicle insurance, and household furnishings and operations were among those to decline.

The all items index increased 2.5 percent for the 12 months ending January, the largest 12-month increase since the period ending October 2018. The index for all items less food and energy rose 2.3 percent over the last 12 months, the same 12-month increase as reported in the previous 3 months. The food index rose 1.8 percent over the last 12 months, while the energy index increased 6.2 percent over that period.

¹ Not seasonally adjusted.

Food

The food index increased 0.2 percent in January, the same as in December. The index for food at home rose 0.1 percent, and four of the six major grocery component indexes increased in January. The index for other food at home rose 0.2 percent in January while the index for nonalcoholic beverages increased 0.4 percent. The indexes for dairy and related products and for fruits and vegetables also increased over the month.

In contrast, the index for cereals and bakery products declined 0.4 percent in January after falling 0.3 percent in December. The index for meats, poultry, fish, and eggs was unchanged over the month.

The index for food away from home rose 0.4 percent in January after rising 0.3 percent in December. The indexes for limited service meals and full service meals both increased 0.4 percent over the month.

The food at home index increased 0.7 percent over the last 12 months. Five of the six major grocery store food group indexes rose over the past 12 months, with increases ranging from 0.3 percent (cereals and bakery products) to 2.7 percent (dairy and related products). The fruits and vegetables index declined over the span, falling 1.0 percent. The index for food away from home rose 3.1 percent over the last year. The index for full service meals increased 3.4 percent and the index for limited service meals rose 2.9 percent.

Energy

The energy index declined 0.7 percent in January, after rising 1.6 percent in December. The gasoline index fell 1.6 percent in January, following a 3.1 percent increase in December. (Before seasonal adjustment, gasoline prices fell 0.8 percent in January.) The electricity index increased over the month, rising 0.4 percent after falling in December. The index for natural gas increased 1.0 percent in January.

The energy index increased 6.2 percent over the past 12 months, with its major component indexes mixed. The gasoline index increased 12.8 percent, while the electricity index advanced 0.5 percent over the last 12 months. However, the index for natural gas fell 3.2 percent over the same period.

All items less food and energy

The index for all items less food and energy increased 0.2 percent in January, after rising 0.1 percent in December. The shelter index rose 0.4 percent in January, with the rent index increasing 0.4 percent and the owners' equivalent rent index rising 0.3 percent. The medical care index rose 0.2 percent in January, with the index for hospital services increasing 0.8 percent. However, the index for physicians' services fell 0.4 percent, and the index for prescription drugs also declined 0.4 percent over the month.

The apparel index rose 0.7 percent in January following a 0.1-percent increase in December. The recreation index increased 0.3 percent over the month, as did the education index. The index for personal care advanced 0.7 percent in January after declining 0.2 percent the previous month. The airline fares index rose 0.7 percent, after declining in each of the 3 previous months. The index for new vehicles was unchanged in January.

The index for used cars and trucks continued to decline, decreasing 1.2 percent in January after falling 0.4 percent in December. The index for motor vehicle insurance fell 0.2 percent in January. The index for household furnishings and operations also declined in January, decreasing 0.1 percent.

The index for all items less food and energy rose 2.3 percent over the past 12 months. The shelter index rose 3.3 percent over the 12-month span, and the medical care index rose 4.5 percent. Used cars and trucks (-2.0 percent) and apparel (-1.3 percent) were among the few indexes to decline over the last year.

Not seasonally adjusted CPI measures

The Consumer Price Index for All Urban Consumers (CPI-U) increased 2.5 percent over the last 12 months to an index level of 257.971 (1982-84=100). For the month, the index increased 0.4 percent prior to seasonal adjustment.

The Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) increased 2.5 percent over the last 12 months to an index level of 251.361 (1982-84=100). For the month, the index increased 0.4 percent prior to seasonal adjustment.

The Chained Consumer Price Index for All Urban Consumers (C-CPI-U) increased 2.3 percent over the last 12 months. For the month, the index increased 0.4 percent on a not seasonally adjusted basis. Please note that the indexes for the past 10 to 12 months are subject to revision.

The Consumer Price Index for February 2020 is scheduled to be released on Wednesday, March 11, 2020 at 8:30 a.m. (EDT).

Technical Note

Brief Explanation of the CPI

The Consumer Price Index (CPI) measures the change in prices paid by consumers for goods and services. The CPI reflects spending patterns for each of two population groups: all urban consumers and urban wage earners and clerical workers. The all urban consumer group represents about 93 percent of the total U.S. population. It is based on the expenditures of almost all residents of urban or metropolitan areas, including professionals, the self-employed, the poor, the unemployed, and retired people, as well as urban wage earners and clerical workers. Not included in the CPI are the spending patterns of people living in rural nonmetropolitan areas, farming families, people in the Armed Forces, and those in institutions, such as prisons and mental hospitals. Consumer inflation for all urban consumers is measured by two indexes, namely, the Consumer Price Index for All Urban Consumers (CPI-U) and the Chained Consumer Price Index for All Urban Consumers (C-CPI-U).

The Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) is based on the expenditures of households included in the CPI-U definition that meet two requirements: more than one-half of the household's income must come from clerical or wage occupations, and at least one of the household's earners must have been employed for at least 37 weeks during the previous 12 months. The CPI-W population represents about 29 percent of the total U.S. population and is a subset of the CPI-U population.

The CPIs are based on prices of food, clothing, shelter, fuels, transportation, doctors' and dentists' services, drugs, and other goods and services that people buy for day-to-day living. Prices are collected each month in 75 urban areas across the country from about 6,000 housing units and approximately 22,000 retail establishments (department stores, supermarkets, hospitals, filling stations, and other types of stores and service establishments). All taxes directly associated with the purchase and use of items are included in the index. Prices of fuels and a few other items are obtained every month in all 75 locations. Prices of most other commodities and services are collected every month in the three largest geographic areas and every other month in other areas. Prices of most goods and services are obtained by personal visits or telephone calls by the Bureau's trained representatives.

In calculating the index, price changes for the various items in each location are aggregated using weights, which represent their importance in the spending of the appropriate population group. Local data are then combined to obtain a U.S. city average. For the CPI-U and CPI-W, separate indexes are also published by size of city, by region of the country, for cross-classifications of regions and population-size classes, and for 23 selected local areas. Area indexes do not measure differences in the level of prices among cities; they only measure the average change in prices for each area since the base period. For the C-CPI-U, data are issued only at the national level. The CPI-U and CPI-W are considered final when released, but the C-CPI-U is issued in preliminary form and subject to three subsequent quarterly revisions.

The index measures price change from a designed reference date. For most of the CPI-U and the CPI-W, the reference base is 1982-84 equals 100. The reference base for the C-CPI-U is December 1999 equals 100. An increase of 7 percent from the reference base, for example, is shown as 107.000. Alternatively, that relationship can also be expressed as the price of a base period market basket of goods and services rising from \$100 to \$107.

Sampling Error in the CPI

The CPI is a statistical estimate that is subject to sampling error because it is based upon a sample of retail prices and not the complete universe of all prices. BLS calculates and publishes estimates of the 1-month, 2-month, 6-month, and 12-month percent change standard errors annually for the CPI-U. These standard error estimates can be used to construct confidence intervals for hypothesis testing. For

example, the estimated standard error of the 1-month percent change is 0.03 percent for the U.S. all items CPI. This means that if we repeatedly sample from the universe of all retail prices using the same methodology, and estimate a percentage change for each sample, then 95 percent of these estimates will be within 0.06 percent of the 1-month percentage change based on all retail prices. For example, for a 1-month change of 0.2 percent in the all items CPI-U, we are 95 percent confident that the actual percent change based on all retail prices would fall between 0.14 and 0.26 percent. For the latest data, including information on how to use the estimates of standard error, see <https://www.bls.gov/cpi/tables/variance-estimates/home.htm>.

Calculating Index Changes

Movements of the indexes from 1 month to another are usually expressed as percent changes rather than changes in index points, because index point changes are affected by the level of the index in relation to its base period, while percent changes are not. The following table shows an example of using index values to calculate percent changes:

	Item A	Item B	Item C
Year I	112.500	225.000	110.000
Year II	121.500	243.000	128.000
Change in index points	9.000	18.000	18.000
Percent change	$9.0/112.500 \times 100 = 8.0$	$18.0/225.000 \times 100 = 8.0$	$18.0/110.000 \times 100 = 16.4$

Use of Seasonally Adjusted and Unadjusted Data

The Consumer Price Index (CPI) produces both unadjusted and seasonally adjusted data. Seasonally adjusted data are computed using seasonal factors derived by the X-13ARIMA-SEATS seasonal adjustment method. These factors are updated each February, and the new factors are used to revise the previous 5 years of seasonally adjusted data. The factors are available at www.bls.gov/cpi/tables/seasonal-adjustment/seasonal-factors-2020.pdf. For more information on data revision scheduling, please see the Factsheet on Seasonal Adjustment at www.bls.gov/cpi/seasonal-adjustment/questions-and-answers.htm and the Timeline of Seasonal Adjustment Methodological Changes at www.bls.gov/cpi/seasonal-adjustment/timeline-seasonal-adjustment-methodology-changes.htm.

For analyzing short-term price trends in the economy, seasonally adjusted changes are usually preferred since they eliminate the effect of changes that normally occur at the same time and in about the same magnitude every year—such as price movements resulting from weather events, production cycles, model changeovers, holidays, and sales. This allows data users to focus on changes that are not typical for the time of year. The unadjusted data are of primary interest to consumers concerned about the prices they actually pay. Unadjusted data are also used extensively for escalation purposes. Many collective bargaining contract agreements and pension plans, for example, tie compensation changes to the Consumer Price Index before adjustment for seasonal variation. BLS advises against the use of seasonally adjusted data in escalation agreements because seasonally adjusted series are revised annually.

Intervention Analysis

The Bureau of Labor Statistics uses intervention analysis seasonal adjustment for some CPI series. Sometimes extreme values or sharp movements can distort the underlying seasonal pattern of price change. Intervention analysis seasonal adjustment is a process by which the distortions caused by such unusual events are estimated and removed from the data prior to calculation of seasonal factors. The resulting seasonal factors, which more accurately represent the seasonal pattern, are then applied to the unadjusted data.

For example, this procedure was used for the motor fuel series to offset the effects of the 2009 return to normal pricing after the worldwide economic downturn in 2008. Retaining this outlier data during seasonal factor calculation would distort the computation of the seasonal portion of the time series data for motor fuel, so it was estimated and removed from the data prior to seasonal adjustment. Following that, seasonal factors were calculated based on this “prior adjusted” data. These seasonal factors represent a clearer picture of the seasonal pattern in the data. The last step is for motor fuel seasonal factors to be applied to the unadjusted data.

For the seasonal factors introduced for January 2020, BLS adjusted 53 series using intervention analysis seasonal adjustment, including selected food and beverage items, motor fuels, electricity, and vehicles.

Revision of Seasonally Adjusted Indexes

Seasonally adjusted data, including the U.S. city average all items index levels, are subject to revision for up to 5 years after their original release. Every year, economists in the CPI calculate new seasonal factors for seasonally adjusted series and apply them to the last 5 years of data. Seasonally adjusted indexes beyond the last 5 years of data are considered to be final and not subject to revision. For January 2020, revised seasonal factors and seasonally adjusted indexes for 2015 to 2019 were calculated and published. For series which are directly adjusted using the Census X-13ARIMA-SEATS seasonal adjustment software, the seasonal factors for 2019 will be applied to data for 2020 to produce the seasonally adjusted 2020 indexes. Series which are indirectly seasonally adjusted by summing seasonally adjusted component series have seasonal factors which are derived and are therefore not available in advance.

Determining Seasonal Status

Each year the seasonal status of every series is reevaluated based upon certain statistical criteria. Using these criteria, BLS economists determine whether a series should change its status from "not seasonally adjusted" to "seasonally adjusted", or vice versa. If any of the 81 components of the U.S. city average all items index change their seasonal adjustment status from seasonally adjusted to not seasonally adjusted, not seasonally adjusted data will be used in the aggregation of the dependent series for the last 5 years, but the seasonally adjusted indexes before that period will not be changed. Twenty-eight of the 81 components of the U.S. city average all items index are not seasonally adjusted for 2020.

Contact Information

For additional information about the CPI visit www.bls.gov/cpi or contact the CPI Information and Analysis Section at 202-691-7000 or cpi_info@bls.gov.

For additional information on seasonal adjustment in the CPI visit www.bls.gov/cpi/seasonal-adjustment/home.htm or contact the CPI seasonal adjustment section at 202-691-6968 or cpiseas@bls.gov.

Information from this release will be made available to sensory impaired individuals upon request. Voice phone: 202-691-5200; Federal Relay Service: 1-800-877-8339.

¹ Foods, fuels, and several other items are priced every month in all areas. Most other goods and services are priced as indicated: M - Every month.
1 - January, March, May, July, September, and November. 2 - February, April, June, August, October, and December.

² Regions defined as the four Census regions.

³ Indexes on a December 1996=100 base.

⁴ Indexes on a December 2017=100 base.

⁵ Indexes on a December 1986=100 base.

⁶ 1998 - 2017 indexes based on substantially smaller sample.

⁷ Indexes on a December 2001=100 base.

⁸ Indexes on a 1987=100 base.

NOTE: Local area indexes are byproducts of the national CPI program. Each local index has a smaller sample size than the national index and is, therefore, subject to substantially more sampling and other measurement error. As a result, local area indexes show greater volatility than the national index, although their long-term trends are similar. Therefore, the Bureau of Labor Statistics strongly urges users to consider adopting the national average CPI for use in their escalator clauses.

¹ The C-CPI-U is designed to be a closer approximation to a cost-of-living index in that it, in its final form, accounts for any substitution that consumers make across item categories in response to changes in relative prices. Since the expenditure data required for the calculation of the C-CPI-U are available only with a time lag, the C-CPI-U is issued first in preliminary form using the latest available expenditure data at that time and is subject to four revisions.

Indexes are issued as initial estimates. Indexes are revised each quarter with the publication of January, April, July, and October data as updated expenditure estimates become available. The C-CPI-U indexes are updated quarterly until they become final. January-March indexes are final in January of the following year; April-June indexes are final in April of the following year; July-September indexes are final in July of the following year; October-December indexes are final in October of the following year.

¹ The 'effect' of an item category is a measure of that item's contribution to the All items price change. For example, if the Food index had an effect of 0.40, and the All items index rose 1.2 percent, then the increase in food prices contributed 0.40 / 1.2, or 33.3 percent, to that All items increase. Said another way, had food prices been unchanged for that month the change in the All items index would have been 1.2 percent minus 0.40, or 0.8 percent. Effects can be negative as well. For example, if the effect of food was a negative 0.1, and the All items index rose 0.5 percent, the All items index actually would have been 0.1 percent higher (or 0.6 percent) had food prices been unchanged. Since food prices fell while prices overall were rising, the contribution of food to the All items price change was negative (in this case, -0.1 / 0.5, or minus 20 percent).

² A statistic's margin of error is often expressed as its point estimate plus or minus two standard errors. For example, if a CPI category rose 0.6 percent, and its standard error was 0.15 percent, the margin of error on this item's 1-month percent change would be 0.6 percent, plus or minus 0.3 percent.

³ If the current seasonally adjusted 1-month percent change is greater than the previous published 1-month percent change, then this column identifies the closest prior month with a 1-month percent change as (L)arge as or (L)arger than the current 1-month change. If the current 1-month percent change is smaller than the previous published 1-month percent change, the most recent month with a change as (S)mall or (S)maller than the current month change is identified. If the current and previous published 1-month percent changes are equal, a dash will appear. Standard numerical comparisons are used. For example, 0.8% is greater than 0.6%, -0.4% is less than -0.2%, and -0.2% is less than 0.0%. Note that a (L)arger change can be a smaller decline, for example, a -0.2% change is larger than a -0.4% change, but still represents a decline in the price index. Likewise, (S)maller changes can be increases, for example, a 0.6% change is smaller than 0.8%, but still represents an increase in the price index. In this context, a -0.2% change is considered to be smaller than a 0.0% change.

⁴ Not seasonally adjusted.

⁵ Indexes on a December 1997=100 base.

⁶ Special indexes based on a substantially smaller sample. These series do not contribute to the all items index aggregation and therefore do not have a relative importance or effect.

⁷ Indexes on a December 2007=100 base.

⁸ Indexes on a December 2005=100 base.

⁹ Indexes on a December 1986=100 base.

¹⁰ Indexes on a December 1993=100 base.

¹¹ Indexes on a December 2009=100 base.

¹² Indexes on a December 1990=100 base.

¹³ Indexes on a December 1983=100 base.

¹⁴ Indexes on a December 2001=100 base.

¹⁵ Indexes on a December 1982=100 base.

¹⁶ Indexes on a December 1996=100 base.

¹⁷ Indexes on a December 1988=100 base.

¹ The 'effect' of an item category is a measure of that item's contribution to the All items price change. For example, if the Food index had an effect of 0.40, and the All items index rose 1.2 percent, then the increase in food prices contributed 0.40 / 1.2, or 33.3 percent, to that All items increase. Said another way, had food prices been unchanged for that year the change in the All items index would have been 1.2 percent minus 0.40, or 0.8 percent. Effects can be negative as well. For example, if the effect of food was a negative 0.1, and the All items index rose 0.5 percent, the All items index actually would have been 0.1 percent higher (or 0.6 percent) had food prices been unchanged. Since food prices fell while prices overall were rising, the contribution of food to the All items price change was negative (in this case, -0.1 / 0.5, or minus 20 percent).

² A statistic's margin of error is often expressed as its point estimate plus or minus two standard errors. For example, if a CPI category rose 2.6 percent, and its standard error was 0.25 percent, the margin of error on this item's 12-month percent change would be 2.6 percent, plus or minus 0.5 percent.

³ If the current 12-month percent change is greater than the previous published 12-month percent change, then this column identifies the closest prior month with a 12-month percent change as (L)arge as or (L)arger than the current 12-month change. If the current 12-month percent change is smaller than the previous published 12-month percent change, the most recent month with a change as (S)mall or (S)maller than the current month change is identified. If the current and previous published 12-month percent changes are equal, a dash will appear. Standard numerical comparison is used. For example, 2.0% is greater than 0.6%, -4.4% is less than -2.0%, and -2.0% is less than 0.0%. Note that a (L)arger change can be a smaller decline, for example, a -0.2% change is larger than a -0.4% change, but still represents a decline in the price index. Likewise, (S)maller changes can be increases, for example, a 0.6% change is smaller than 0.8%, but still represents an increase in the price index. In this context, a -0.2% change is considered to be smaller than a 0.0% change.

⁴ Indexes on a December 1997=100 base.

⁵ Special indexes based on a substantially smaller sample. These series do not contribute to the all items index aggregation and therefore do not have a relative importance or effect.

Consumer Price Index, Chicago-Naperville-Elgin — January 2020

Local prices up 2.6 percent over the year

The Consumer Price Index for All Urban Consumers (CPI-U) in the Chicago-Naperville-Elgin area increased 0.9 percent in January, the U.S. Bureau of Labor Statistics reported today. Assistant Commissioner for Regional Operations Charlene Peiffer noted that the index for food was up 0.7 percent and the energy index increased 2.0 percent over the month. The all items less food and energy index rose 0.9 percent in January. Within the all items less food and energy category, prices were higher over the month for apparel and shelter. (Data in this report are not seasonally adjusted. Accordingly, month-to-month changes may reflect the impact of seasonal influences.)

Over the last 12 months, the Chicago area all items CPI-U increased 2.6 percent. (See [chart 1](#) and [table A](#).) Over the year, the all items less food and energy index rose 2.3 percent, while the energy and food indexes were up 8.9 percent and 1.3 percent, respectively. (See [table 1](#).)

Chart 1. Over-the-year percent change in CPI-U, Chicago-Naperville-Elgin, IL-IN-WI, January 2017–January 2020

Percent change

Source: U.S. Bureau of Labor Statistics.

Food

Food prices rose 0.7 percent in January. Of the two components within the food index, prices for food at home (groceries) increased 1.0 percent, while prices for food away from home (restaurant, cafeteria, and vending purchases) rose 0.3 percent. Within the food at home group, indexes were higher in January for other fresh vegetables; carbonated drinks; and spices, seasonings, condiments, sauces.

From January 2019 to January 2020, the food index increased 1.3 percent. Over the year, grocery prices were essentially unchanged, up 0.1 percent, and costs for food away from home were up 2.7 percent.

Energy

The energy index increased 2.0 percent in January. Among the index's components, prices were higher for electricity (+2.8 percent), gasoline (+1.7 percent), and utility (piped) gas service (+1.6 percent).

Over the year, the Chicago area energy index rose 8.9 percent. From January 2019 to January 2020, gasoline prices were up 21.0 percent and the electricity index increased 1.7 percent. Utility (piped) gas service costs were 8.2 percent lower over the year.

All items less food and energy

The index for all items less food and energy was up 0.9 percent in January. Among the index's components, prices were higher over the month for apparel (8.0 percent) and shelter (0.6 percent).

Over the year, the index for all items less food and energy increased 2.3 percent. A contributing factor was an increase in the index for shelter (2.7 percent).

The February 2020 Consumer Price Index for Chicago is scheduled to be released on Wednesday, March 11, 2020.

Technical Note

The Consumer Price Index (CPI) is a measure of the average change in prices over time in a fixed market basket of goods and services. The Bureau of Labor Statistics publishes CPIs for two population groups: (1) a CPI for All Urban Consumers (CPI-U) which covers approximately 93 percent of the total population and (2) a CPI for Urban Wage Earners and Clerical Workers (CPI-W) which covers approximately 29 percent of

the total population. The CPI-U includes, in addition to wage earners and clerical workers, groups such as professional, managerial, and technical workers, the self-employed, short-term workers, the unemployed, and retirees and others not in the labor force.

The CPI is based on prices of food, clothing, shelter, and fuels, transportation fares, charges for doctors' and dentists' services, drugs, and the other goods and services that people buy for day-to-day living. Each month, prices are collected in 75 urban areas across the country from about 5,000 housing units and approximately 22,000 retail establishments--department stores, supermarkets, hospitals, filling stations, and other types of stores and service establishments. All taxes directly associated with the purchase and use of items are included in the index.

The index measures price changes from a designated reference date (1982-84) that equals 100.0. An increase of 16.5 percent, for example, is shown as 116.5. This change can also be expressed in dollars as follows: the price of a base period "market basket" of goods and services in the CPI has risen from \$10 in 1982-84 to \$11.65. For further details see the CPI home page on the Internet at www.bls.gov/cpi and the BLS Handbook of Methods, Chapter 17, The Consumer Price Index, available on the Internet at www.bls.gov/opub/hom/pdf/homch17.pdf.

In calculating the index, price changes for the various items in each location are averaged together with weights that represent their importance in the spending of the appropriate population group. Local data are then combined to obtain a U.S. city average. Because the sample size of a local area is smaller, the local area index is subject to substantially more sampling and other measurement error than the national index. In addition, local indexes are not adjusted for seasonal influences. As a result, local area indexes show greater volatility than the national index, although their long-term trends are quite similar. **NOTE: Area indexes do not measure differences in the level of prices between cities; they only measure the average change in prices for each area since the base period.**

The **Chicago-Naperville-Elgin, IL-IN-WI, Core Based Statistical Area** covered in this release is comprised of Cook, DeKalb, DuPage, Grundy, Kane, Kendall, Lake, McHenry, and Will Counties in Illinois; Jasper, Lake, Newton, and Porter Counties in Indiana; and Kenosha County in Wisconsin.

Information in this release will be made available to sensory impaired individuals upon request. Voice phone: (202) 691-5200; Federal Relay Service: (800) 877-8339.

Footnotes

(1) Index on a December 1977=100 base.

(2) This index series was calculated using a Laspeyres estimator. All other item stratum index series were calculated using a geometric means estimator.

(3) Index on a December 1982=100 base.

(4) Indexes on a December 1997=100 base.

(5) Special index based on a substantially smaller sample.

(6) Index on a December 1993=100 base.

- Data not available.

Note: Index applies to a month as a whole, not to any specific date. Data not seasonally adjusted.

LISLE LIBRARY DISTRICT
PERSONNEL & POLICY COMMITTEE MEETING
November 6, 2019 - 6:00 p.m.

1. Roll call

Present:

Emily Swistak - Secretary | Chair

Marjorie Bartelli - Vice President

Thomas Duffy - Trustee

Thomas Hummel - President

Tatiana Weinstein - Director/Ex-officio

Beth McQuillan - Assistant Director/Ex-officio

Also Present:

Chris Knight - Recording Secretary

2. Opportunity for visitors to speak - None

3. Approve Minutes of the August 26, 2019 Personnel-Policy Committee Meeting

MOTION: Trustee Duffy moved to approve the minutes of the August 26, 2019 Personnel-Policy Committee Meeting. Vice President Bartelli seconded.

Roll Call Vote - All Aye. The motion passed.

4. LLD Policy 635: Posting and Distribution of Materials; discussion/draft

Director Weinstein discussed combining Policies 635 and 640, with edits. Committee members suggested language changes and punctuation. Secretary Swistak asked the Committee if there was agreement to recommend the policy. The Committee agreed to recommend LLD Policy 635: Signs and Displaying Promotional Literature/Material for Board approval at the next regular meeting.

5. LLD Policy 640: Signs; discussion/draft

The Committee discussed Policy 640 in tandem with Item 4, LLD Policy 635: Posting and Distribution of Materials; discussion/draft.

6. LLD Policy 610: Patron Code of Conduct; discussion/draft

Director Weinstein provided an overview of the draft. Committee members discussed the term, "intoxication" regarding alcohol/cannabis use. Committee members suggested edits. Secretary Swistak asked the Committee if there was agreement to recommend the policy. The Committee agreed to recommend LLD Policy 610: Patron Code of Conduct for Board approval at the next regular meeting.

7. LLD Policy 201: Board of Trustees Code of Conduct & Ethics; discussion/draft

Director Weinstein provided an overview of further edits to the draft. Committee members discussed particular language choices and the subject of breaches. Committee members suggested changes. Secretary Swistak asked the Committee if there was agreement to recommend the policy. The Committee agreed to recommend LLD Policy 201: Board of Trustees Code of Conduct & Ethics for Board approval at the next regular meeting.

8. LLD Policy 705: Construction, Capital Improvements, and Contractual Services; discussion/draft

Director Weinstein provided an overview of the draft edits and Illinois statutes related to the policy. Committee members discussed language choices and a professional recommendation/opinion. Secretary Swistak asked the Committee if there was agreement to recommend the policy as edited. The Committee agreed to recommend LLD Policy 705: Construction, Capital Improvements, and Contractual Services for Board approval at the next regular meeting.

9. Adjourn

MOTION: Trustee Duffy moved to adjourn the meeting. Vice President Bartelli seconded.
Voice Vote - All Aye

The meeting adjourned at 7:25 p.m.

Recorded by:

Chris Knight, Recording Secretary

Approved by the Personnel & Policy Committee on February 21, 2020.

Approved by

Emily Swistak, Committee Chair
